

EN

Read the instructions carefully  
as well as the safety guidelines before use.

## 1. SAFETY INSTRUCTIONS

- For your safety, this appliance contains valuable materials and regulations (Low Voltage Directive, Electromagnetic Compatibility, Environmental...).
- The appliance's accessories become very hot during use. Avoid contact with the skin. Make sure that the supply cord never comes into contact with the hot parts of the appliance.
- Check that the voltage of your electricity supply matches the voltage of your appliance.
- Any error when connecting the appliance can cause irreparable harm, not covered by the guarantee.
- For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask for installer for advice.
- The installation of the appliance and its use must however comply with the standards in force in your country.

## • WARNING: do not use this appliance near bathtubs, showers, basins or other vessels containing water.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

Stop using your appliance and contact an Authorised Service Centre if:
 

- your appliance has fallen;
- it does not work correctly;
- the appliance has been damaged;
- before cleaning and maintenance procedures;
- if it is not working correctly;
- as soon as you have finished using it;
- if you leave the room, even momentarily;
- Do not use if the cord is damaged;
- Do not hold the cord with wet hands;
- Do not hold the appliance by the casing, which is hot, but by the handle.
- Do not plug/unplug by pulling on the cord, rather pull out by the plug.
- Do not use an electrical extension lead.
- Do not clean with abrasive or corrosive products.
- Do not use at temperatures below 0°C and above 35°C.

## GUARANTEE

Your appliance is designed for use in the home only. It should not be used for professional purposes. The guarantee becomes null and void in the case of improper usage.

## 2. OPERATION

- Root Volume Attachment
- Switch the appliance on
- Roughly dry the hair leaving the roots damp.
- Place the root volume attachment (A) on the hair dryer as shown (fig. 1). Please note that the markings should be on the top.
- Set the machine to setting 1.
- Step By Step Instructions:**
  - Always start with sections of hair at the top of the head and finish with those at the nape of the neck.
  - Lift the section up keeping it vertical (fig. 2).
  - Place the attachment as close as possible to the root (fig. 3).
  - Hold the section of hair after styling the bulb (fig. 4).
  - Hold in position for 7 seconds.
  - Remove the attachment (A) from the section of hair without straightening it (fig. 5).
  - Move to another section of hair.
  - The attachment can also be used on dry hair.
- For this method, firstly lightly dampen the roots and follow the steps described above with the required area.

## ENVIRONMENT PROTECTION FIRST!

Your appliance contains valuable materials which can be recovered or recycled. Leave it at a local civic waste collection point.

These instructions are also available on our website [www.rowenta.com](http://www.rowenta.com).

Predeljeno uporabljajočim pristrojem vniknjenje proti neophodnim meram bezopasnosti.

## 1. МЕРЫ БЕЗОПАСНОСТИ

В целях Вашей безопасности данный прибор соответствует существующим нормам и требованиям по защите от электрического напряжения, электромагнитной совместимости, сплошной изоляции проводов и т.д.

Детали прибора сильно нагреваются во время работы. Будьте осторожны, не допускайте соприкосновения поверхности прибора с кожей. Следите за тем, чтобы шнур питания не касался горячих поверхностей прибора.

Убедитесь, что рабочее напряжение Вашей электросети соответствует напряжению, указанному на заводской табличке прибора. Любая ошибки при подключении прибора может привести к неизвестным повреждениям, которые не покрываются гарантией.

Для дополнительной защиты рекомендуется подключение устройства защитного отключения (УЗО) с номинальным дифференциальным рабочим током не выше 30mA к электрической сети ванной комнаты. Проконсультируйтесь с вашим установщиком.

Установка прибора и его использование должны соответствовать действующим в стране правилам нормативам.

• ВНИМАНИЕ: не используйте это устройство вблизи ванн, душевых, бассейнов или других емкостей с водой. близости от емкостей, в которых находится вода (ванна, душевая кабина, умывальник и т.п.).

Устройство не предназначено для использования гарнитурами с ограниченными физическими и интеллектуальными способностями (люди с дцп), а также людьми, не имеющими соответствующего опыта или необходимых знаний. Указаны лишь могут использоваться данное устройство только под наблюдением или после получения инструкций по его эксплуатации от лиц, отвечающих за их безопасность. Следите за тем, чтобы дети не играли с устройством.

• При использовании устройства в ванной комнате, отключайте его от сети после использования, поскольку близость воды представляет опасность, даже когда устройство отключено.

• Допускается использование прибора детёнышами 8 лет и старше, а также лицами с ограниченными физическими, сенсорными

или умственными способностями, лицами, не имеющими опыта и знания, необходимых при обращении с такими изделиями, при условии, что за ними осуществляется соответствующий надзор или они ознакомлены с инструкциями, касающимися безопасного использования прибора и объясняющими риски, возникающие в ходе его использования. Не разрешайте детям играть с прибором. Очистка и техническое обслуживание не должно выполняться детёнышами без надзора взрослых.

• Для additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask for installer for advice.

The installation of the appliance and its use must however comply with the standards in force in your country.

## • WARNING: do not use this appliance near bathtubs, showers, basins or other vessels containing water.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

Stop using your appliance and contact an Authorised Service Centre if:
 

- your appliance has fallen;
- it does not work correctly;
- the appliance has been damaged;
- before cleaning and maintenance procedures;
- if it is not working correctly;
- as soon as you have finished using it;
- if you leave the room, even momentarily;
- Do not use if the cord is damaged;
- Do not hold the cord with wet hands;
- Do not hold the appliance by the casing, which is hot, but by the handle.
- Do not plug/unplug by pulling on the cord, rather pull out by the plug.
- Do not use an electrical extension lead.
- Do not clean with abrasive or corrosive products.
- Do not use at temperatures below 0°C and above 35°C.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

• If the supply cord is damaged,

**BG** Преди употреба прочетете внимателно инструкцията за ползване, както и указанията за безопасност.

#### 1. ПРЕПОРЪКИ ЗА БЕЗОПАСНОСТ

- Ако използвате със съветите на инструкцията и на действащата апаратура (телефон, дигитална, Дигитална електронна съвместимост). Директивата за опазване на околната среда и др.).
- Приставките на уреда са нагреватели синко по време на работа. Избегвайте контакт с кожата. Уверете се, че захранващият кабел не се допира до горещите части на уреда.
- Проверете дали захранването на уреда отговоря на електрическата ви мрежа. Неправилното захранване може да причини неизвестни повреди, които не се покриват от гаранцията.
- За допълнителна защита, монтирането на устройство за диференциална защита (УДЗ), което има номинален остатъчен ток, не надвишаваш 30 mA, се препоръчва при електрохранване на банята. Онсутирайте се техник.
- И когато използвате на уреда и използвате мята от гъби на действащите стандарти във вашата държава.

#### • ПРЕДУПРЕЖДЕНИЕ: не използвайте този уред близо до вани, душове, басейни или други съдове, съдържащи вода.

Уредът не е предназначен да бъде използван от лица (включително деца), чието физически, състини или умствени способности са ограничени, или лица без опит и знания освен ако отговорно за тяхната безопасност личе наблюдава и дава предварителни указания относно ползването на уреда. Наглеждайте децата, за да се уверите, че не играт с уреда.

#### • Когато уредът се използва в баня, изключете го от контакта на електрическата мрежа след употреба, тъй като близостта със водата представлява рисък, дори ако самият уред е изключен от бутона.

• Този уред може да се използва от деца над 8 години и лица с ограничени физически, състини или умствени способности, или лица без опит и знания, ако са поставени под наблюдение или са бъдат инструктирани за безопасната му употреба, и разбираят опасността. С уреда не трябва да си играят деца. Да не се извършва почистяване и поддръжка от деца, оставени без надзор.

• Ако захранващият кабел е повреден, зада избегнете всяка рискове, той трябва да бъде сменен от производителя, от сервиза за гаранционно обслужване или от лица със сходна квалификация.

• Не използвайте уреда и се свържете с одобрен сервизен център, в случай че уредът е паднал или не работи нормално.

• Уредът трябва да бъде изключен от захранването преди почистване и изваждане на подвижни части, при неправилна работа, веднага след като приключите работата с него.

• Не използвайте уреда, ако кабелът е повреден.

• Не потапяйте и не мийте съдове или касети.

• Не използвайте уреда, когато се нагрева, а за държача.

• Не използвайте захранващ кабел, а щепсела, за да го изключите от мрежата.

• Не използвайте уздържки.

• Не използвайте термометър или коронини препарати за почистване.

• Не използвайте при температура по-иско от 0°C и по-висока от 35°C.

**ГАРАНЦИЯ**

Този уред е предназначен само за домашна употреба. Не е предназначен за професионални цели. Гаранцията се обезсилва при неправилна употреба.

#### 2. РАБОТА С УРЕДА

##### • Приставка за обем от корените:

- Включете уреда.

- Представете подсушите косата като оставите корените влажни.

- Изключете уреда.

- Поставете захранващата за обем от корените (A) върху уреда, както е показано на фиг. 5. Вниманието! Маркираната тръба е в разположение отгоре.

- Включете уреда като същност е на позиция 1.

- Използвайте на етапи:

- Винаги започвайте с кутичурите, разположени на върха на главата, и завършвайте с тези на езата.

- Постепенно извадете корените, като държите ги със здрава вертикална поставка (фиг. 1).

- Винаги използвайте изолирано кабло-блок от корена (фиг. 2).

- Задържте корените 7 секунди.

- Издържайте приставката (A) от кутията до я изпълните по него (фиг. 3).

- Прекратете към позиция 1 от другата страна на главата (фиг. 4).

- Прекратете към друг кутичур.

Приставката може да се използва също така и за оформление върху суха коса. За тази цел използвайте леко корените и процедурите по начин, описан по-горе на желаното място.

#### ДА УЧАСТВАМЕ В ОПАЗВАНЕТО НА ОКОЛНАТА СРЕДА

Уредът е изработен от различни материали, които могат да се предадат на вторични съоръжения или да се рециклират.

Предлагаме да спечелите център или, ако има такъв, в одобрен сервис, за да бъде преработен.

Тези инструкции могат да бъдат намерени също и на нашия уебсайт [www.rowenta.com](http://www.rowenta.com).

#### RO

лаите de folosire, dinții cu atenție atât modul de utilizare cat și recomandările de securitate.

#### 1. RECOMANDĂRI DE SECURITATE

• Pentru сигурна думнеоност, acest aparat este conform normelor și reglementărilor aplicabile (direcțivele privind echipamentele de joasă tensiune, compatibilitatea electro-magnetică, medicii înconjurători, etc.).

• Acest aparatul se încalește foarte tare în timpul utilizării. Evitați contactul cu pielea. Asigurați-vă că никодиматът на обем от корените се намира в контакт с кожата.

• Verificați ca tensiunea instalatiei dumneuoastre electrice să corespundă cu cea a aparatului dumneuoastre.

• Conectarea la o tensiune necorespunzătoare poate provoca daune permanente care nu sunt acoperite от гаранция.

• Pentru protecție suplimentară, se recomandă instalarea în cadrul circuitului electric care alimentează baia și unui dispozitiv de curent rezidual (DCR) în cazul în care curentul rezidual nominal este de maxim 30 mA. Consultați un electrician.

• Instalația aparatului și utilizarea se trebuie să fie totuși, conforme normelor în vigoare din тара dumneuoastă.

• **AVERTISMENT:** nu utilizati acest aparat lângă băi, dușuri, чиuvete sau alte recipiente care conțin apă.

• Dacă folosiți aparatul în baie, scoateți-l din priză după utilizare, deoarece apropierea apei reprezintă un pericol chiar și atunci când aparatul este opriț...

• Acest aparat poate fi folosit de copiii peste 8

ani și de persoanele cu dizabilități fizice, senzoriale sau mintale sau fără experiență în utilizare numai sub supraveghere sau dacă au fost instruiri în folosirea aparatului în siguranță și dacă înțeleg risurile implicate. Nu lăsați copiii să se joace cu aparatul. Nu permiteți copiilor să realizeze curățarea sau întreținerea aparatului nesupravegheți.

• Dacă cablul de alimentare este deteriorat, acesta trebuie să fie înlocuit de fabricant, de serviciul post-vânzare sau de către persoane cu calificare similară pentru evitarea unui pericol.

• Ako je priključni vod oftečen, njega mora zamjeniti proizvođač, ovlafteni servis ili osoba sličnih kvalifikacija, u cilju izbjegavanja svake eventualne opasnosti.

• Ne rabite svoj uređaj i obratite se ovlaftenome servisnom centru:

- ako je valj u uređaju doživo pad.

- u slučaju neispravnog rada.

- Uredaj mora biti isključen iz mreže:

- u slučaju neispravnog rada,

- neposredno nakon prestanka s uporabom.

- Nemojte rabiti uređaj ako je priključni vod oštećen.

- Ne držite uređaj vlažnim rukama.

- Ne držite uređaj u blizini vrućih predmeta, nego za ručku.

- Ne isključujte iz mreže povlačenjem za priključni vod, nego povlačenjem za utičnicu.

- Ne rabite proizvod priključni vod.

• Zbog dodatne zaštite bilo bi dobro da se u strujo kolo koje snabdeva kupatilo stvori ugraditi zaštitna strujna sklopka (RCD) čija oznaka za preostalu radnu struju nije veća od 30 mA. Pitajte električara za savet.

• Predstavite instalaciju i njegovu upotrebu moraju u svakom slučaju da budu u skladu sa propisima koji valže u vašoj zemlji.

• **UPOZORENJE:** nemojte da koristite ovaj aparat u blizini kade, tuš-kabinе, lavaboa ili drugim posudama s vodom.

• **2. UTILIZARE**

##### • Accesoriu pentru ridicarea rădăcinii părului:

- Panou de lucru în funcție.

- Uscătătorul este prealabil lăsat să se răcească.

- Nu scufundă aparatul în apă și nu îl tragește deasupra.

- Nu folosiți aparatul cu mânecă de apă.

- Nu folosiți aparatul cu mânecă de apă și cu oțelă de apă.

- Nu folosiți aparatul cu mânecă de apă și cu oțelă de apă.

- Nu folosiți aparatul cu mânecă de apă și cu oțelă de apă.

• **3. GARANTIE**

- Aparatul dumneuoastă conține numeroase materiale valorifibile sau reciclabile.

- Predăți-l la un punct de colectare sau, în lipsa acestuia, la un centru de service autorizat pentru el și procesat în mod corespunzător.

• **Instrucțiunile sunt disponibile și pe website-ul nostru [www.rowenta.com](http://www.rowenta.com).**

• **SL**

Pred vsko uporabu pažljivo preberite navodila za uporabo ter varnostne nasvet.

#### 1. VAROVNI NASEV

• Za zagotavljanje vaše varnosti ta naprava ustrezna veljavnim standardom in predpisom (direktive za nizko napetost, elektromagnetno zdržljivost, okoliš...).

• Med uporabo pažljivo uporabite napravo.

• Preverite ali napajalna naprava vsele električne naprave ustrezna napetosti naprave.

• Napajalna naprava ali napajalna naprava vsele električne naprave ustrezna napetosti naprave.

• Napajalna naprava je primenjena za napajanje vsele naprave.

• **2. UPOTREBA**

#### • Dodatak za povećanje volumena od korena kose:

- Uključite fen.

- Koristite fen tako da korene kose ostane vlažni.

- Isključite fen.

- Na aparat stavite dodatak (A) za povećanje volumena od korena kose kako je prikazano na sl. 1.

Imajte na umu da delovi dodatka za volumen moraju biti na vrhu.

- Postavite brzinu fenu na poziciju 1.

- Podignite fen po dolini i uklonite ga.

- Držite dodatak u volumenu što je blizu moguće korijene kose (sl. 3).

- Držite u tom položaju 7 sekundi.

- Pomejte fen po drugu stranu glave (sl. 6, 7).

- Umetnite drži prema pravilu.

- Pomejte fen po druga stranu glave (sl. 6, 7).

- Umetnite drži prema pravilu.

- Pomejte fen po druga stranu glave (sl. 6, 7).

- Umetnite drži prema pravilu.

- Pomejte fen po druga stranu glave (sl. 6, 7).

• **3. GARANCIJA**

Naprava je namenjena samo za upotrebu u domaćinstvu.
